

CLIMATE CHANGE MITIGATION AND ADAPTATION POLICY

We, as Yeşilyurt Demir Çelik A.Ş., hereby commit;

- To adopt climate change mitigation and adaptation as one of the fundamental elements of our sustainability approach,
- To identify, assess, and effectively manage the physical and transition risks associated with climate change that may arise from our operations,
- To comply with national and international legislation, standards, and obligations related to climate change,
- To support practices that contribute to the United Nations Sustainable Development Goals,
- To calculate, monitor, and reduce our greenhouse gas emissions in accordance with internationally recognized methodologies,
- To support efforts to increase energy efficiency, reduce energy intensity, and continuously improve our energy performance,
- To promote the use of renewable energy sources and the considering of low carbon energy solutions,
- To support implementation and improvement efforts related to low carbon production technologies and the green steel transition,
- To continue our compliance efforts by monitoring the Carbon Border Adjustment Mechanism (CBAM) and sectoral developments related to climate change,
- To increase resource efficiency and to expand practices aimed at reducing our environmental impacts,
- To conduct training and awareness-raising activities to enhance our employees' knowledge and awareness of climate change,
- To regularly review and to continuously improve our climate action and adaptation performance,
- To fulfil our economic, environmental, and social responsibilities in a balanced manner to leave a more liveable environment for future generations.
