

ENVIRONMENTAL POLICY

We, as Yeşilyurt Demir Çelik A.Ş., hereby commit;

- To regard the protection of the environment and environmental sustainability as an integral part of our activities,
- To ensure full compliance with the national and international legislation, standards, and other obligations related to the environment,
- To adopt climate change mitigation and adaptation activities as one of the fundamental elements of our sustainability approach,
- To regularly monitor and evaluate our environmental impacts, and to manage them with a continuous improvement approach,
- To reduce our greenhouse gas emissions, to increase energy efficiency, and to support the use of renewable energy,
- To encourage the efficient use of natural resources, to reduce water consumption, and to increase resource efficiency,
- To prevent waste generation, and to expand the adoption of reduction, reuse, recycling, and recovery practices in line with the waste hierarchy,
- To minimize our environmental impacts by supporting the circular economy and zero waste approach,
- To contribute to the protection of air quality and to keep our emissions under control,
- To encourage our suppliers and business partners to adopt the principles of environmental responsibility and sustainability,
- To increase our employees' environmental awareness and to disseminate the culture of environmental responsibility,
- To monitor, report, and share with our stakeholders our environmental performance in a transparent manner,
- To fulfil our economic, environmental, and social responsibilities in a balanced manner with the aim of leaving a more liveable environment for future generations.
