

SUSTAINABILITY POLICY

We, as Yeşilyurt Demir Çelik A.Ş., hereby commit;

- To adopt sustainability as one of the fundamental elements of our business model, corporate culture, and all our activities,
- To integrate environmental, social, and governance (ESG) principles into all our business processes,
- To manage economic growth together with an understanding of environmental responsibility and social benefit,
- To reduce our greenhouse gas emissions within the scope of climate change mitigation and to carry out efforts in line with the “2053 Net Zero Emissions” target,
- To support the efficient use of resources, to increase energy efficiency, and to promote renewable energy applications,
- To protect water resources, to carry out efforts to reduce water consumption, and to continuously improve our water management performance,
- To adopt a circular economy and Zero Waste approach to reduce waste generation, and to support reuse, recycling, and recovery practices,
- To reduce our environmental impacts, to prevent environmental pollution, and to contribute to the protection of natural resources,
- To create safe, healthy, inclusive, and fair working environments for our employees,
- To respect human rights and to support the principles of equal opportunity, diversity, and inclusion,
- To encourage women’s participation in business life and to contribute to societal gender equality,
- To support our employees’ development in professional, technical, and sustainability related areas,
- To contribute to the social and economic development of local communities and to support local recruitment and local procurement,
- To adopt a zero-tolerance approach against bribery, corruption, and all forms of unethical practices,
- To establish a sustainable and responsible supply chain and to support the development of our suppliers’ sustainability performance,
- To improve our decision-making processes by taking our stakeholders’ views and expectations into account,
- To create sustainable value in line with the United Nations Sustainable Development Goals,
- To regularly monitor and evaluate our sustainability performance and to improve it with a continuous improvement approach,
- To fulfil our environmental, social, and economic responsibilities in a balanced manner in order to leave a more liveable world for future generations.
